AN NO. 828 (1940)

April 1, 1983

SUBJECT: Operating Loan Program Funding - Fiscal Year 1983

TO: State Directors, FmHA

To make the most effective use of guaranteed operating loan funding authority, the unobligated State balances will be pooled nationally at close of business March 31, 1983. State Directors may now submit guaranteed loan obligating documents to the Finance Office for funding from the pool. Loans will be obligated after the pooling date in the order received until further notice.

As you were advised in AN NO. 814 (1940), dated February 25, 1983, the unobligated State balances of insured operating loan funds for the first and second quarters will be pooled nationally effective at close of business March 31, 1983. The pooled funds will remain under National Office control and will be allocated to the States on an as needed basis. States other than those authorized to use their total funds for the year may request funds from the pool after they have exhausted their third quarter allocations by calling the Acting Director, Farm Real Estate and Production Division, on 447-4572.

CHARLES W. SHUMAN  
Administrator
